

Pedro Sanchez

Full Stack Engineer

I'm passionate about technology and have been deeply immersed in the subject, seeking to enhance my skills. My goal is to develop systems that make our lives easier. Moreover, I have a fascination for optimizing work processes, harnessing the power of technology to boost productivity. My expertise includes NodeJs, React, MongoDB, Docker, and Git/GitHub.

Experience

FullStack Developer

MOCX - (06/2022 - 06/2023) - 1 year

Project Link: <https://strategyoe.com/>

Project involved implementing a real-time monitoring platform for industrial machine productivity.

Technologies: **NodeJs**, **PHP** (Laravel), **jQuery**, **MongoDB**, **SQLServer**, **Docker**, and **AWS**.

Developer / Support

Apucarana Municipal City Hall

(08/2021 - 06/2022) - 10 months

Developed hot pages for public events in the municipality, provided user support, assembled and maintained computers, and planned network infrastructure.

Technologies: **React**, **NodeJs**, **PHP**, and **SQLServer**.

Freelancer

Doof

(07/2023 - present)

Doof is a platform for snack bar/restaurant owners to manage their menu and orders. Additionally, the platform provides a space for users to place orders.

Technologies: **NodeJs**, **React**, **MongoDB**, **Docker** and **AWS**.
